Lahore, Pakistan | Open to Remote Roles | Blue Card Eligible

Professional Summary

Digital and Data Specialist with 2+ years of experience delivering technology solutions in complex organisations. Skilled at bridging technical and non-technical teams, simplifying complex concepts for diverse audiences, and supporting digital transformation projects. Strong background in web systems, data-driven applications, and process optimisation, with proven ability to work across cultures in remote, global teams.

Professional Experience

Software Frontend Developer | Topdot   July 2024 – Present
- Contributed to digital reform by modernising online services through interactive applications.
- Improved performance and accessibility, achieving 90%+ Lighthouse scores in alignment with digital standards.
- Shared knowledge of modern tools and practices across teams, building capacity in digital delivery.

Associate Software Engineer | Absoluit   April 2023 – December 2023
- Supported digital transformation initiatives by migrating legacy systems into scalable React.js platforms.
- Acted as liaison between technical teams and business stakeholders, ensuring delivery matched policy requirements.
- Delivered structured outputs through agile processes, Jira workflows, and transparent reporting.

Digital & Data Skills

Digital Transformation:	System modernisation, process optimisation, automation with AI tools
Data:	Building dashboards, APIs for data exchange, supporting governance through structured delivery
Collaboration:	Stakeholder communication, cross-cultural teamwork, knowledge sharing
Governance:	Agile delivery, version control, documentation, alignment with organisational policies

Selected Projects

Open Data E-Commerce Platform
React.js, Node.js, MongoDB, Stripe API
- Designed a data-driven platform with real-time reporting, secure transactions, and admin dashboards.
- Applied governance principles in handling user data, with secure authentication and access control.

Task Management Dashboard
Vue.js, Node.js, PostgreSQL
- Supported digital workflow reform through collaborative dashboards with progress analytics.
- Built features to enable transparency in tasks, document sharing, and stakeholder alignment.

Education & Certifications

Bachelor of Science in Computer Science | FAST-NUCES   2023

Certifications: Advanced React (Meta/Coursera), Frontend Development Libraries (freeCodeCamp), DevOps Essentials (IBM)

Key Strengths

- **Communication:** Able to explain technical concepts clearly to policy and non-technical audiences.
- **Cross-cultural collaboration:** Experience working in diverse, remote-first teams across countries.
- **Knowledge sharing:** Actively contributed documentation, training, and open-source projects.
- **Adaptability:** Comfortable working in evolving digital and policy environments.
