PROFILE

Dedicated Web Developer with expertise in React.js, Next.js, and building scalable web applications. Proven ability to deliver high-quality web experiences, optimize performance, and create user-centric solutions. Passionate about developing efficient, maintainable code that enhances business growth and user engagement.

EXPERIENCE

Topdot   July 2024 – Present
Frontend Developer

· Improved website performance by optimizing React.js and Next.js code, reducing load times by 30%.
· Designed responsive layouts, boosting mobile traffic by 25% and user retention by 20%.
· Collaborated with UX/UI teams to refine designs, enhancing user satisfaction across platforms.

Absoluit   April 2023 December 2023
Associate Software Engineer

· Developed a Progressive Web App (PWA) with React.js, increasing user sessions by 25%.
· Built reusable components, cutting feature development time by 20% and improving scalability.
· Enhanced SEO with Next.js, driving 30% more organic traffic and better rankings.

Final Year Project, FAST-NUCES   September 2022 March 2023
Web Developer

· Created a full-stack web application using React.js, Node.js, and MongoDB to manage university event registrations.
· Implemented real-time notifications and a responsive UI, improving user interaction by 35%.
· Deployed on Vercel, ensuring scalability and performance for 500+ users.

EDUCATION

B.S. in Computer Science, FAST-NUCES   *July 2023*

SKILLS

Frontend	HTML, SCSS, JavaScript, JQuery, React.js, Redux, GSAP, Tailwind, Bootstrap 5, MUI
Backend	Node.js, Express.js, SQL, MongoDB
APIs	RESTful APIs, GraphQL
Tools	Git, Vercel, Firebase, Webpack

PROJECTS

Personal Portfolio Showcase

· Built a dynamic portfolio site with React.js, Next.js, and GSAP to highlight my projects and skills.
· Featured animated transitions and responsive design, deployed on Vercel. **Live Demo:** hamzab-hutta.vercel.app

Vape E-commerce Store

· Developed an e-commerce platform like Vape Superstore using React.js and Node.js for vape product sales.
· Included advanced filtering and a mobile-first UI, improving usability. **Live Demo:** vapesuper-store.co.uk

Scheduling Platform

· Created a scheduling app inspired by Cal.com with React.js and Firebase for real-time availability syncing.
· Featured calendar integration and a sleek UI, streamlining bookings. **Live Demo:** cal.com

Online Bookstore

· Built a bookstore platform inspired by Simon & Schuster using React.js and Node.js, with a focus on book discovery.
· Integrated search filters and a responsive UI, boosting user engagement by 25%. **Live Demo:** simo-nandschuster.com

Eco-Friendly Service Site

· Designed a service site like EcoGreen with React.js and Tailwind CSS, promoting eco-friendly cleaning solutions.
· Added smooth navigation and responsive layouts for a polished experience. **Live Demo:** ecogreen.com.au

Funky Artist Portfolio

· Designed a vibrant artist portfolio for Popscapes using GSAP, HTML, SCSS, and JavaScript, featuring animated collage displays.
· Integrated e-commerce for art sales with a bold, funky aesthetic. **Live Demo:** popscapes.com

Productivity Management Platform

· Developed a workspace management platform inspired by OneKey using React.js and Next.js for unified productivity tools.
· Implemented real-time collaboration features and an intuitive dashboard interface. **Live Demo:** onekey.so

Luxury E-commerce Platform

· Built a high-end e-commerce site with React.js, Next.js, and Stripe for seamless transactions.
· Added real-time inventory and responsive design, enhancing user experience. **Live Demo:** mirakl.com
